

Electronic Sign

The electronic sign in the park of the East Morgan County Library District is for display of information about the library and library events. Events where the library is partnering with another group in the community will also be displayed, at the discretion of the staff and as needed for promotion of the program.

The East Morgan County Library District may allow non-profit groups to display information about community events on the sign. All requests to have information displayed on the electronic sign must be approved by the Library Board of Trustees on a case-by-case basis.

The East Morgan County Library District reserves the right to deny any request to advertise on the electronic sign.

Adopted: August 2016
